eLearning Solutions: OSHA 1910.269 Power Line Workers

18 on-line eLearning Modules (7-15 minutes)

- ◆ Covers all 18 paragraphs in the OSHA Standard 1910.269
- ◆ Designed for power workers who want to be “qualified” to work on and around distribution and transmission power lines and equipment
- ◆ Rich in graphics and practical applications

Conforms to the current edition of OSHA 1910.269

eLearning Solutions: OSHA 1910.269 Power Line Workers

18 on-line eLearning modules (7-15 minutes each)

About the eLearning Course

OSHA 1910.269 Power Line Workers is a self-guided class consisting of 18 modules and quizzes. Each module is 7-15 minutes long and is followed by a quiz consisting of 4 multiple choice questions regarding materials covered in the module. A printable certificate of completion will be available upon completion of the class. During this class you will learn about:

- ◆ Training requirements in the OSHA 1910.269 Standards
- ◆ Safety rules
- ◆ Personal protective equipment
- ◆ Overhead power lines
- ◆ Underground power lines
- ◆ Different types of equipment

Who Should Attend

Power line employees who want to be "qualified" to work on and around distribution and transmission power lines and equipment.

Continuing Education Units

This course provides 0.55 Continuing Education Units (CEUs) or 5.5 Professional Development Hours (PDHs). Please note that the CEU/PDH for this class have been approved by New York State.

Course Objectives

Upon successful completion of this course the learner will be able to:

1. Understand the application, general requirements, and training requirements in the OSHA 1910.269 Standards.
2. Understand and apply the minimum approach distance requirements.
3. Understand the safety rules related to employee protection and proper tool use.
4. Recognize the importance of selecting the proper personal protective equipment.
5. Apply the proper safety rules when working on or near power lines and equipment.
6. Apply the proper safety rules related to working on grounding, overhead lines, tree trimming, and buried facilities.

Class Format/ Learning Methods

- ◆ On-line, self-paced study
- ◆ Recorded narrated presentation slides rich in graphics and practical applications
- ◆ Moodle (learning management system) keeps track of progress throughout the training
- ◆ Ability to email questions to the instructor

About the Instructor

David J. Marne, P.E., is a registered professional electrical engineer. Mr. Marne is the author of McGraw-Hill's National Electrical Safety Code® (NESC®) Handbook and is a nationally recognized speaker on the NESC. He serves on NESC Subcommittee 4 Overhead Lines Clearances, Subcommittee 7 Underground Lines, Subcommittee 3 Electric Supply Stations, and the Interpretations Subcommittee. He is company president and senior electrical engineer for Marne and Associates, Inc. in Missoula, MT where he specializes in National Electrical Safety Code (NESC) training, OSHA training for power and communication workers, engineering design training, and expert witness services related to the NESC, the OSHA Standards for Power and Communication workers, and California's General Orders GO95, GO128, and GO165. Mr. Marne has over 30 years of experience in the utility industry engineering and managing transmission and distribution line projects, substation projects, electrical system planning studies, joint use (power and communication) projects, and providing training and expert witness services.

David J. Marne, P.E.

eLearning Solutions: OSHA 1910.269 Power Line Workers

18 on-line eLearning modules (7-15 minutes each)

Class Topics

- ◆ Introduction
- ◆ Paragraph a - General
- ◆ Paragraph b - Medical services and first aid
- ◆ Paragraph c - Job briefing
- ◆ Paragraph d - Hazardous energy control (lockout/tagout) procedures
- ◆ Paragraph e - Enclosed spaces
- ◆ Paragraph f - Excavations
- ◆ Paragraph g - Personal protective equipment
- ◆ Paragraph h - Ladders, platforms, step bolts, and manhole steps
- ◆ Paragraph i - Hand and portable power tools
- ◆ Paragraph j - Live line tools
- ◆ Paragraph k - Materials handling and storage
- ◆ Paragraph l (Parts 1 & 2) - Working on or near exposed energized parts
- ◆ Paragraph m - De-energizing lines and equipment for employee protection
- ◆ Paragraph n - Grounding for protection of employees
- ◆ Paragraph o - Testing and test facilities
- ◆ Paragraph p - Mechanical equipment
- ◆ Paragraph q (Parts 1 & 2) - Overhead lines
- ◆ Paragraph r - Line clearance tree trimming operations
- ◆ Paragraph s - Communications facilities
- ◆ Paragraph t - Underground electrical installations
- ◆ Paragraph u - Substations
- ◆ Paragraph v - Power generation
- ◆ Paragraph w - Special conditions

Enrollment/Pricing/ Cancellation

- ◆ The OSHA 1910.269 Power Line Workers eLearning class costs \$125.00 per eLearner for a 1 year subscription.
- ◆ eLearners register through Marne and Associates, Inc. website www.marneassociates.com. Once registered, login instructions will be emailed to the enrollee to access the online class.
- ◆ Marne and Associates, Inc. does not offer a refund for eLearning classes at this time. It is the eLearner's responsibility to make sure he/she has reviewed the class contents and system requirements prior to purchasing the class.

Benefits of eLearning

- ◆ Classes are designed around the learner
- ◆ On-demand access means learning can happen precisely when needed
- ◆ Travel time and associated costs are reduced or eliminated
- ◆ Professional quality presentations
- ◆ Classes created and taught by industry experts
- ◆ Training can be tracked to determine each employee's training status

Trademarks

National Electrical Safety Code® and NESC® are registered trademarks of the Institute of Electrical and Electronics Engineers (IEEE). OSHA (Occupational Safety & Health Administration) is a branch of the U.S. Department of Labor.

Comments by Past Participants...

Enjoyed the course.
Well done!

Very helpful and
informative.
Very appreciated.

Good presentation.
Keep up the good
work.

Class Materials

- ◆ There are not hard copy materials for the eLearning class. The presentation is viewable on line anytime during the 1 year subscription period.
- ◆ Attendees are encouraged (but not required) to have a copy of the OSHA Standard 1910.269, NESC Codebook, and McGraw-Hill's NESC Handbook. These books are available for purchase on www.codehandbook.com.
